

PLEXTALK[®] Pocket

Pocket Guide for the "PLEXTALK Pocket" online player

Set up the PLEXTALK Pocket

1. Turn the PLEXTALK Pocket over. Make sure two small projections are up. Push square button which is bottom of the PLEXTALK Pocket and put finger of another hand on two lines which are middle of the PLEXTALK Pocket, then press by both hands and slide cover toward bottom side. Remove the cover completely. (Figure 1)
2. Hold the battery by left hand and make sure two projections are right side of battery and a small projection is bottom of left side. (Figure 2)
3. Put battery in the PLEXTALK Pocket from right side. If you are aiming to insert battery from left side, battery hits a part of PLEXTALK Pocket and battery cannot be inserted. (Figure 3)

6. Turn on the PLEXTALK Pocket by pressing and holding the Power key.

Key Description

Power Key:

Power ON: Press and hold down the Power key.

Power OFF: Press and hold the Power key to turn on power saving mode. Release after the "Power save" announcement. Keep pressing and holding another few seconds until the "Power off" announcement in order to turn the power off.

Sleep timer: While the PLEXTALK Pocket is on, briefly press the power key to select the sleep timer with intervals from 15 minutes to 2 hours.

Record Key: Briefly press to start the DAISY editing mode. By pressing again, the unit starts recording on the SD card or USB. Holding it pressed enables the recording of "Voice memos" which are stored in the local memory of the PLEXTALK Pocket.

Play/Stop Key: To start and stop the playback and also to confirm entries in the menu option.

Arrow Keys: To select the level, use the up and down key. Once the level is determined, use the left or right key to select.

Bookmark Key: Press once to go to a bookmark. Press twice to create a new bookmark. Press three times to remove a bookmark.

Menu Key: Press to activate the menu. You can choose from "edit", "recording settings", "playback settings", "bookmark", "voice memo", "podcast", "media management", "system settings" and "network settings". Holding the menu key enables the key describer mode.

Title Key: You can select the "SD card", "USB" and "Voice memo". You can select a title by using the left or right key on the selected media. Using the up or down key, you can select a title by "category", "folder", "title" or "file".

GoTo Key: Navigate directly to a page, heading, percentage or keyword in a DAISY book, to a track or an album in music or to a percentage or keyword in a text. This key needs to be followed by a number and the Play/Stop key.

Numeric Keypads

Speed Setting: Press the 1 key once to set the speed, then the up or down key to increase or decrease the reading speed.

Tone Setting: Press the 1 key twice to set the tone, then the up or down key to increase or decrease the tone.

Information: With the 5 key, you can get information about the battery, network, download, current title and so on. By holding the 5 key, the time and date are announced.

Backup: Press the 9 key to start backup process from source media to target media.

Help Function: Press the 0 key to activate the help function.

Enter: Press the hash key to confirm entries in title selection, bookmark, the menu option and so on.

Cancel: Press the star key to cancel entries in title selection, bookmark, the menu options and so on.

Examples
